## COMPLETE VECTOR FILES.

All the files in main folder (AI, EPS) contain all the icons in single file. These are your source files. Use them if you are a designer with the access to appropriate software, i.e. Adobe Illustrator or Adobe Photoshop.

## EACH ICON IN SINGLE FILE.

Each icon, in addition to full vector source file, is saved separately as SVG file (scalable vector graphic) and transparent PNG file in 3 sizes (64x64 px, 128x128 px, 256x256 px and 512x512 px).

This will be super useful for you if you want to upload the icons directly into your website, through the cms system (i.e. Wordpress). These formats are also supported by basic graphic software like CANVA for example.
